

1. Trace your hand LIGHTLY with pencil.
2. Use a ruler to draw horizontal lines from left to right and make them  $\frac{1}{2}$  inch apart. Fill the page top to bottom. Do NOT draw lines through your hand!
3. Connect with your pencil where your line stopped and where it starts back with curved lines that look like rainbows.
4. Trace your horizontal lines ONLY using a black marker or sharpie.
5. Erase pencil outline of hand.
6. Continue to replicate the black lines with other colors of your choice until page is full.
7. See the illusion!
